Formulary Introduction

FORMULARY

The Ambetter from Arizona Complete Health Formulary, or Prescription Drug List, is a guide to available brand and generic drugs that are approved by the Food and Drug Administration (FDA) and covered through your prescription drug benefit. Generic drugs have the same active ingredients as their brand name counterparts and should be considered the first line of treatment. The FDA requires generics to be safe and work the same as brand name drugs. If there is no generic available, there may be more than one brand name drug to treat a condition. Preferred brand name drugs are listed on Tier 2 to help identify brand drugs that are clinically appropriate, safe, and cost-effective treatment options, if a generic medication on the formulary is not suitable for your condition.

Please note, the Formulary is not meant to be a complete list of the drugs covered under your prescription benefit. Not all dosage forms or strengths of a drug may be covered. This list is periodically reviewed and updated and may be subject to change. Drugs may be added or removed, or additional requirements may be added in order to approve continued usage of a specific drug.

Specific prescription benefit plan designs may not cover certain products or categories, regardless of their appearance in this document. Please check your benefits for coverage limitations and your share of cost for your drugs.

Drug List Key:

Brand name drugs are listed in CAPS and generic drugs are lower case. Drugs are covered under different copay tiers depending on your benefit:

- Tier 0** - No copayment for those drugs that are used for prevention and are mandated by the Affordable Care Act. Select oral contraceptives, vitamin D, folic acid for women of child bearing age, over-the-counter (OTC) aspirin, and smoking cessation products may be covered under this tier. Certain age or gender limits apply.
- Tier 1_A** - Lowest copayment for select drugs that offer the greatest value compared to other drugs used to treat similar conditions. Select over-the-counter (OTC) drugs may be covered under this tier.
- Tier 1_B** - Low copayment for those drugs that offer great value compared to other drugs used to treat similar conditions. Select over-the-counter (OTC) drugs may be covered under this tier.
- Tier 2** - Medium copayment covers brand name drugs that are generally more affordable, or may be preferred compared to other drugs to treat the same conditions.
- Tier 3** - High copayment covers higher cost brand name and non-preferred generic drugs. This tier may also cover non-specialty drugs that are not on the Prescription Drug List but approval has been granted for coverage.
- Tier 4** - Highest copayment is for “specialty” drugs used to treat complex, chronic conditions that may require special handling, storage or clinical management. Prescription drugs covered under the specialty tier may require fulfillment at a pharmacy that participates in Ambetter’s “specialty” or “hemophilia” networks. For additional information on which pharmacies are within our “specialty” or “hemophilia” networks, please consult Ambetter website’s pharmacy information section.
- Tier 6** - Coverage for this tier is for oncology or anti-cancer drugs. Cost-share is set to be equivalent to member's medical benefit cost-share.

Prior Authorization for Non-Formulary Drugs

To obtain prior authorization for a non-formulary drug, your provider must fill out the Prior Authorization form. Services will respond via fax or phone within 24 hours of receipt of all necessary information for urgent requests, and within 72 hours for non-urgent requests, unless state law requires faster response. If the request is disapproved, the notice of disapproval will contain a clear explanation of the specific reasons for disapproving the prior authorization request, or if the request was incomplete, the explanation will identify the missing material information that is necessary to complete the request.

Formulary Abbreviations:

Abbreviation	Term	What it means
AL	Age Limit	Some drugs are only covered for certain ages.
QL	Quantity Limit	Some drugs are only covered for a certain amount.
PA	Prior Authorization	Your doctor must ask for approval from Ambetter before some drugs will be covered.
ST	Step Therapy	In some cases, you must first try certain drugs before Ambetter covers another drug for your medical condition. For example, if Drug A and Drug B both treat your medical condition, Ambetter may not cover Drug B unless you try Drug A first.
NF	Non-formulary	This product is not covered unless you or your provider request an exception. Alternative medications are listed next to non-covered product
RX/OTC	Prescription and OTC	These drugs are made in both prescription form and Over-the-counter (OTC) form.
SP	Specialty Drug	These products are Specialty Drugs that may have special fill requirements.
SF	Split Fill	Initially, certain medications may only be available in 15-day-supply increments until you are stabilized on the medication. After you have been taking the medication for 90 days, this restriction may no longer apply.
D/D+/C	Not applicable	Medications on the formulary with D/D+/C may take alternative copays for certain benefit designs. Please consult your benefit documents for more information.

Opioid Medications:

Medications identified on the formulary by "New starts limited to 7 day supply" allow up to two 7 day fills during any 28 day period and up to a total of 28 day non-consecutive supply in any 90 day period. This limit applies cumulatively to all opioid medications filled. For fills exceeding these limits, your providers may submit a Prior Authorization request.

Introducción al Formulario

FORMULARIO

El Formulario de Ambetter from Arizona Complete Health, o la Lista de medicamentos recetados, es una guía de los medicamentos de marca y genéricos disponibles que están aprobados por la Administración de Alimentos y Medicamentos (FDA) y que están cubiertos a través de su beneficio de medicamentos recetados. Los medicamentos genéricos tienen los mismos principios activos que los de marca y deben considerarse la primera línea de tratamiento. La FDA exige que los medicamentos genéricos sean seguros y funcionen igual que los medicamentos de marca. Si no hay un genérico disponible, podría haber más de un medicamento de marca para tratar una condición. Los medicamentos de marca preferidos figuran en el nivel 2 para ayudar a identificar los medicamentos de marca que son opciones de tratamiento clínicamente adecuadas, seguras y rentables, si un medicamento genérico del Formulario no es adecuado para su condición.

Tenga en cuenta que el Formulario no pretende ser una lista completa de los medicamentos cubiertos por su beneficio de medicamentos recetados. Es posible que no estén cubiertas todas las formas farmacéuticas o concentraciones de un medicamento. Esta lista se revisa y actualiza periódicamente y puede estar sujeta a cambios. Se puede agregar o eliminar medicamentos, o se pueden incorporar requisitos adicionales para aprobar el uso continuado de un medicamento específico.

Es posible que determinados diseños de planes de beneficios de medicamentos recetados no cubran algunos productos o categorías, independientemente de que figuren en este documento. Revise sus beneficios para conocer las limitaciones de la cobertura y la parte que le corresponde pagar por sus medicamentos.

Clave de la lista de medicamentos:

Los medicamentos de marca aparecen en MAYÚSCULAS y los medicamentos genéricos aparecen en minúsculas. Los medicamentos están cubiertos por diferentes niveles de copago en función de su beneficio:

- Nivel 0** - Sin copago para aquellos medicamentos que se usan para prevención y son obligatorios según la Ley de Cuidado de Salud Asequible. Los anticonceptivos orales seleccionados, la vitamina D, el ácido fólico para mujeres en edad fértil, las aspirinas de venta libre (OTC) y los productos para dejar de fumar pueden estar cubiertos en este nivel. Se aplican determinados límites de edad o sexo.
- Nivel 1a** - El copago más bajo para medicamentos seleccionados que ofrecen el mayor valor en comparación con otros medicamentos utilizados para tratar condiciones similares. Ciertos medicamentos de venta libre (OTC) seleccionados pueden estar cubiertos en este nivel.
- Nivel 1b** - Copago bajo para aquellos medicamentos que ofrecen un gran valor en comparación con otros medicamentos utilizados para tratar condiciones similares. Ciertos medicamentos de venta libre (OTC) seleccionados pueden estar cubiertos en este nivel.
- Nivel 2** - El copago medio cubre los medicamentos de marca que suelen ser más asequibles, o que pueden ser preferidos en comparación con otros medicamentos para tratar las mismas condiciones.
- Nivel 3** - El copago alto cubre los medicamentos de marca de costo más alto y medicamentos genéricos no preferidos. Este nivel también puede cubrir medicamentos no especializados que no figuran en la Lista de medicamentos recetados, pero cuya cobertura ha sido aprobada.
- Nivel 4** - El copago más alto es para medicamentos “de especialidad” usados para tratar condiciones crónicas complejas que pueden requerir una manipulación, almacenamiento o administración clínica especiales. Los medicamentos recetados cubiertos en el nivel de especialidad pueden tener que ser surtidos en una farmacia que participe de las redes de “especialidad” o de “hemofilia” de Ambetter. Para obtener información adicional sobre qué farmacias están dentro de nuestras redes de “especialidad” o “hemofilia”, debe consultar la sección de información farmacéutica del sitio web de Ambetter.
- Nivel 6** - La cobertura de este nivel es para medicamentos oncológicos o contra el cáncer. El costo compartido está establecido para ser equivalente al costo compartido del beneficio médico del miembro.

Autorización previa para medicamentos no incluidos en el Formulario

Para obtener autorización previa para un medicamento no incluido en el Formulario, su proveedor debe completar el formulario de autorización previa. Los servicios responderán por fax o teléfono en un plazo de 24 horas a partir de la recepción de toda la información necesaria para las solicitudes urgentes, y en un plazo de 72 horas en caso de solicitudes no urgentes, a menos que la legislación estatal exija una respuesta más rápida. Si la solicitud es denegada, el aviso de la denegación incluirá una explicación clara de los motivos específicos para denegar la solicitud de autorización previa, o si la autorización estaba incompleta, la explicación identificará la información material faltante necesaria para completar la solicitud.

Abreviaturas del Formulario:

Abreviatura	Plazo	Significado
AL	Límite de edad	Algunos medicamentos solo están cubiertos para determinadas edades.
QL	Límite de cantidad	Algunos medicamentos solo están cubiertos para determinadas cantidades.
PA	Autorización previa	Su médico debe solicitar la aprobación de Ambetter antes de que algunos medicamentos tengan cobertura.
ST	Terapia escalonada	En algunos casos, usted primero debe probar un medicamento determinado antes de que Ambetter cubra otro medicamento para su condición médica. Por ejemplo, si tanto el medicamento A como el medicamento B tratan su condición médica, Ambetter podría no cubrir el medicamento B a menos que usted pruebe primero el medicamento A.
NF	No incluido en el Formulario	Este producto no está cubierto a menos que usted o su proveedor soliciten una excepción. Hay medicamentos alternativos que figuran a continuación del producto no cubierto.
RX/OTC	Medicamentos recetados y OTC	Estos medicamentos se fabrican tanto como medicamento recetado como de venta libre (OTC).
SP	Medicamento de especialidad	Estos productos son medicamentos de especialidad que pueden tener requisitos de surtido especiales.
SF	Surtido dividido	Al principio es posible que ciertos medicamentos solo estén disponibles en suministros incrementales cada 15 días hasta que usted se estabilice con el medicamento. Una vez transcurridos 90 días desde que comenzó a tomar este medicamento, es posible que esta restricción ya no se aplique.
D/D+/C	No se aplica	Los medicamentos que aparecen en el Formulario con los símbolos D/D+/C conllevar copagos alternativos para ciertos diseños de beneficio. Consulte sus documentos sobre los beneficios para obtener más información.

Medicamentos opioides:

Los medicamentos identificados en el Formulario como “Nuevos pedidos limitados a suministro de 7 días” permiten hasta dos surtidos de 7 días durante cualquier periodo de 28 días y hasta un total de 28 días no consecutivos en un periodo de 90 días. Este límite se aplica de forma acumulativa a todos los medicamentos opioides surtidos. Para surtidos que superen estos límites, sus proveedores pueden presentar una solicitud de autorización previa.

Drug Name	Drug Tier	Requirements/Limits
ADHD/ANTI-NARCOLEPSY/ANTI-OBESITY/ANOREXIANTS - Drugs to Treat ADHD, Sleep and Eating Disorders		
Amphetamines
